It's officially 2022 and we're ready to start the year with a bang and the tendency to mistakenly still write 2021 every time we have to specify the date

for the whole of January. All of that, along with a few over-ambitious new year resolutions and the gorgeous Art Deco Calendars from Art Deco Mumbai.

Mumbai has one of the world's largest ensemble of Art Deco buildings in the world and we think the remarkable fact does not get remarked about

enough. Art Deco Mumbai is here to change that though – with a beautiful reminder every month.

They have introduced a desk calendar for the year 2022 and 2023 which has a new iconic Art Deco building greet you each passing month. You get acquainted with a local wonder every time you move from one month to another and what's more is that they have added a little trivia column to go with the picture of each building. Now become better versed with the local history while adding an exceptional cultural touch to your living room.

The calendar is meant for use in 2022 and 2023 and costs a meagre sum of Rs. 225 and can be ordered **online**. While you are at it, you might also want to explore the specifics of the guided Art Deco Heritage Walk that the organisation hosts in the Churchgate Art Deco district for Rs. 1000 only (subject to availability). Maybe these discoveries will help you with those "new year, new me" resolutions, no?
