

## What's the point of Art Deco?

15 July,2022 07:00 AM IST | Mumbai | Team mid-day |

To discuss Art Deco style of architecture, Art Deco Mumbai Trust is hosting a webinar, Of Substance and Style, where Dr Michael Windover (in pic), a professor of art and architecture in Canada's Carleton University, will be in conversation with Alisha Sadikot, a museum and heritage educator. In the talk scheduled for this evening, he will decode the etymology of Art Deco and the nature of cultural production linked to it. He will inspect the limits of this catch-all term. Trust founder Atul Kumar told us, "Several attempts have been made to demystify the term. In our session, the professor will employ a series of frames to present a rich canvas of the style and its global reach." Those interested to attend it, look up [@artdecomumbai](#).
